

DATAFILE DATABOX

Open Filing System

DataBox
File Containers

DataBox Truck
3830-LF

10 Reasons You Should Use Databox

1. Easy to Expand or Move: Databox required no special tools to assemble. It's modular design makes it fast and easy to move, reconfigure or add on to.
2. Cost Savings: Low cost per square foot of floor space compared to traditional filing systems.
3. Floor Space Savings: Save 50% of floor space as compared to lateral roll out filing cabinets.
4. Fast File Shifting: The fastest system available for file shifting. Boxes slide easily on rails to open up space where it is needed.
5. Productivity Savings: Gives full visual access to all your files. Combined with colour coding, filing and retrieval time is improved at least 3-fold.
6. Versatility: Comes in a variety of sizes, allowing it to fit within your office design requirements while still maximizing the use of floor space.
7. Stores Anything: If you have letter, legal or metric file sizes - Store binders, sales literature, office supplies, manuals - Databox does it all
8. File Movement: Move groups of files around in convenient plastic boxes. Move groups of files to and from your workstations and department or central filing areas.
9. Accessories: Choose from workstation desk racks to file trucks or add retractable workshelves to your system to create convenient work areas.
10. Your Datafile Representative: When you work with Datafile, our representatives will plan, design and install your system for you.
